

DATA-MATRIX CODE ON PRODUCT LABELS

Version: 6. April 2018

Explanation of the barcode-content

Visible in the barcode apps

[>01573641004132170405.006B431,93KGM25,00LTRITL1EU-A5L504/20200001ST0025

Separators will not be displayed

Visible in the Microsoft Editor

[>01-573641004132-170405.006-B4-31,93-KGM-25,00-LTR-ITL1EU-A5L5--04/2020-0001-ST-0025

In the MS editor also the separators (ASCII codes) are visible

Due to the start symbols, the separators and the end symbols our logistics software can trace back the product and the packing. The barcode is also relevant to check if the right product with the right label is used for the shipment to be prepared.

[>	Start symbols
01	Start symbols
573641004132	Umicore product code
170405.006	Batch number
